

ACI-APN - Europe Punctuality Report: June 2024

For Immediate Release 19 Aug 2024

In June 2024, airport performance in terms of punctuality remained stable when compared to June 2023, with arrival punctuality 66% and departure at 57%.

As the summer season kicked into full pace, weather delays mainly impacted performance, notably towards the end of the month.

Paris CDG saw delays from French ATC industrial actions as well as weather. Rome FCO saw flights impacted by flight data exchange system outages and CPDLC issues. Frankfurt FRA saw delays due to en-route ATFM restrictions, airport facilities, ramp handling and knock-on delays. Copenhagen CPH saw punctuality improve as fewer ATC staffing regulations were observed compared to last year. Barcelona BCN from poor weather (CB activity and heavy rain), with very high delays and disruption on 09, 10, 11 and 12 June. Athens continued to suffer from daily ATC capacity delays, although these are at a similar level to last year. Palma PMI saw significant disruption on 11 June when the airport suffered from flooding due to heavy rain.

Airports ranked alphabetically, and by numbers of commercial flights operated on arrival and departure (ACI Europe Airport Grouping - based on 2019 data).

Only passenger flights are taken into consideration, excluding General Aviation and Business Aviation. Data includes flights of IATA Service Type Codes: B (Additional Flights - Passenger - Shuttle Mode), C (Charter - Passenger - Passenger Only), G (Additional Flights - Passenger - Normal Service), J (Scheduled - Passenger - Normal Service), L (Charter - Passenger/Cargo/Mail - Passenger and Cargo and/or Mail), O (Charter - Special Handling - Charter requiring special handling), Q (Scheduled - Passenger/Cargo - Passenger/Cargo in Cabin), R (Additional Flights Passenger/Cargo - Passenger/Cargo in Cabin), S (Scheduled - Passenger - Shuttle Mode).

15' Punctuality (Arrival A15/Departure D15): It is the percentage of punctual flights on arrival/on departure (15 minutes) in relation to the total number of operated flights on arrival/on departure. With regard to the 15 minutes punctuality, all flights are considered to be punctual when they are delayed up to 15:59 mins.

Average Arrival/Departure delay per flight: the total delay minutes of flights delayed one minute or more are divided by the total amount of operated flights on arrival or on departure.

The group was established in 2009 with the objective to standardise the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation (EU) 2019/317 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN - Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
