

ACI-APN - Europe Punctuality Report: December 2025

For Immediate Release 19 Feb 2026

Performance in terms of punctuality saw an improvement when compared to December 2024, with arrival punctuality increasing to 78% and departure punctuality at 72%.

Seasonal weather remained an issue for many airports during the month. Amsterdam AMS experienced several days of delays due to low visibility and strong winds. London LHR had fewer weather regulations and fewer delays. London LGW suffered from fewer weather regulations. Punctuality at Lisbon LIS remains low as arrival regulations due to weather occurred, driving subsequent reactionary (knock-on delays) for departing flights. Oslo OSL saw an improvement following better weather where freezing fog and snow impacted the airport in December 2024. Taxiway works in Manchester MAN caused aerodrome capacity regulations, with high delays observed on 15 December. Prague PRG saw delays due to low visibility throughout the month. Frankfurt FRA suffered from weather (fog) as well as knock-on delays.

Arrival and Departure Punctuality (A15/D15) for all Airports

Arrival Punctuality (A15): December 2025

Category	APN-E Average	Value
1: Over 25 Mil pax	APN-E Average	77.5%

Airports ranked alphabetically, and by numbers of commercial flights operated on arrival and departure (ACI Europe Airport Grouping - based on 2019 data).

Only passenger flights are taken into consideration, excluding General Aviation and Business Aviation. Data includes flights of IATA Service Type Codes: B (Additional Flights - Passenger - Shuttle Mode), C (Charter - Passenger - Passenger Only), G (Additional Flights - Passenger - Normal Service), J (Scheduled - Passenger - Normal Service), L (Charter - Passenger/Cargo/Mail - Passenger and Cargo and/or Mail), O (Charter - Special Handling - Charter requiring special handling), Q (Scheduled - Passenger/Cargo - Passenger/Cargo in Cabin), R (Additional Flights Passenger/Cargo - Passenger/Cargo in Cabin), S (Scheduled - Passenger - Shuttle Mode).

15' Punctuality (Arrival A15/Departure D15): It is the percentage of punctual flights on arrival/on departure (15 minutes) in relation to the total number of operated flights on arrival/on departure. With regard to the 15 minutes punctuality, all flights are considered to be punctual when they are delayed up to 15:59 min (16 min).

Average Arrival/Departure delay per flight: the total delay minutes of flights delayed one minute or more are divided by the total amount of operated flights on arrival or on departure.

The group was established in 2009 with the objective to standardise the reporting of airport punctuality data, to exchange best practices concerning operational performance and predictability at European airports. Under the European Commission Implementing Regulation (EU) 2019/317 these airports must submit their operational data, on a monthly basis, to the Performance Review Unit (PRU) and CODA of EUROCONTROL. By publishing punctuality data from this validated source, APN – Europe assures the accuracy of the performance data in the public domain and are not dependent on third party interpretation.
