

ACI-APN - Europe Punctuality Report: May 2024

For Immediate Release 19 Aug 2024

In May 2024, airport performance in terms of punctuality improved when compared to May 2023, with arrival punctuality 74% and departure at 68%.

Weather (CB activity) was the main cause of en-route ATFM delays in the network, ATC industrial action in France between 23 and 31 May impacted French airports, notably Paris ORY on 25 May.

London LHR struggled with daily ATFM regulations due to weather and aerodrome capacity regulations. Lisbon LIS saw regulations for point merge implementation that took place from 16 to 28 May, despite some ATFM regulations the implementation was completed on time. Amsterdam AMS saw delays during the month due to aerodrome capacity regulations, with weather (CB's) notably on 26 May. Frankfurt FRA saw delays due to en-route ATFM restrictions, airport facilities and knock-on delays.
